Subject: Reinstatement of Water Supply Capacity in the Village of Granville
Granville Solvents Site, Granville, Ohio

Dear Mr. Myers:

The United States Environmental Protection Agency (USEPA) acknowledges receipt of your letters dated September 25, 1996 and June 19, 1997 informing that: (1) Potential Responsible Parties (PRP) for Granville Solvents Site have fulfilled requirements of Section 5.2.e.2 of the Administrative Order on Consent (Docket No. V-W-94-C-248) regarding reinstatement of the water supply capacity of the Village of Granville by installing and testing a new municipal drinking water well PW4, and (2) PRP have applied for and received permission from the Ohio Environmental Protection Agency (OEPA) to bring this well on line as part of their water supply network.

USEPA appreciates your complying with the above requirements. The AOC requires continuance and implementation of such action and monitoring of performance as per Work Plan and the Order until the termination of the Order which is specified in Section XIX (Termination) of the Order.

It is a pleasure working with your group. Please feel free to contact me at 312-886-4445, if I could be of further assistance.

Sincerely,

S. Sirtaj Ahmed
Remedial Project Manager
